## MISSION STATEMENT FOR U.P. PUBLIC SCHOOL SURI, BIRBHUM, W.B.

- To inspire academic, creative and flexible learning environment where children will recognize and achieve their fullest potential, so that they can make their best contribution to the society and they can think beyond parameter.*
- To aim at providing high quality education with modern infrastructural support in excellent learning environment to provide wide opportunities for pupils to nurture, stimulate and develop creative thoughts and to create an environment that fosters consideration, empathy and concern for others.*
- To give the values of the partnership which exists between school, parents and community. Within the partnership, we provide each student with the knowledge skills, and attitude to become a productive citizen in a challenging, technological and diverse world.*
- To provide support and training to all faculty and staff so that they are equipped with adequate preparation and support to perform the responsibility for developing a student for their educational, emotional and social growth.*

**U. P. PUBLIC SCHOOL**  
(Affiliated to CBSE)  
**ABDARPUR, SURI, BIRBHUM**  
**OLYMPIAD AND TALENT SEARCH EXAM FORM 2022-23**

Dear Parents,

Like previous years, this year, too, (2022-23) we are going to organize **G.K., Cyber, Science, Mathematics, English Olympiad & National Science Talent search examinations** in our school. So you are requested to get your ward(s) enrolled for the examinations. The last date to fill up the form on or before **15th July' 2022** & should be submitted to the concerned class teacher or in the cash counter.

OLYMPIAD & TALENT SEARCH EXAMINATION Sare a diagnostic test which actually helps students to improve.

Unlike regular tests which try only to find out how much a child knows (or has memorized), OLYMPIAD & TALENT SEARCH EXAMINATIONS measures how well a student has understood concepts and gives detailed feedback on the same, to help them improve.

Thus OLYMPIAD & TALENT SEARCH EXAMINATIONS helps each student know whether he/she has actually understood a concept early on so that immediate action can be taken. Often students have conceptual gaps which increase as they progress and when they reach the higher classes, they develop a "phobia" for the subject.

School tests-including board exams-tend to be superficial, testing what children have memorised. But the important skills like the ability to think independently and reason logically-critical in today's world-are often not emphasised in school tests.

The focus on fundamentals is so important that when the child finishes studies he/she will have to face the competitive world armed with these fundamentals. Even while opting for higher studies, the student has to go through a complete scan of what he/she knows and how much. Exams like IIT-JEE, AIEEE, AFMC, AIIMS, GRE, GMAT, CAT etc., are so designed to test the fundamental strength of student. Hence the need of the hour is building the fundamentals base as strong as possible.

This exactly is the philosophy of U. P. Public School behind the conducting OLYMPIAD & TALENT SEARCH EXAMINATIONS

Syllabus (all exams are based on CBSE Syllabus)

**Examination Date and Fees**

| Exams | Date of Exam | Classes  | Fees |
|-------|--------------|----------|------|
| IGKO  |              | I to X   | 150  |
| IEO   |              | I to XII | 150  |
| NSO   |              | I to XII | 150  |
| IMO   |              | I to XII | 150  |
| NSTSE |              | I to XII | 150  |

**NOTE :**

- Second Level Exam will be conducted for IEO, NSO and IMO.
- OMR Based Exam with condition be comity normal exam. will be OMR based and conduct in School.

**EXAMINATION PATTERN**

# DEVELOPMENTAL MILESTONES FOR TYPICAL FIRST GRADERS

## At a Glance

- First graders typically get better at physical skills as opposed to learning many new ones.
- Most first graders begin to look for logical answers to their questions about the world.
- First graders may have trouble figuring out how to make and keep friends.

Do you wonder about developmental milestones in first grade? The physical skills a 6-year-old has when going into first grade won't differ that much from those of a 7-year-old at the end of first grade. But typical first-grade development includes big changes in social and thinking skills.

## Physical Milestones

Most children gain stamina and coordination during first grade. They typically start the year uncoordinated and clumsy, because the big muscles in arms and legs are better developed than the small muscles used for smaller movements. What they can do physically doesn't change as much as how well they're able to do it. Most children reach these milestones in first grade:

- Have improved hand-eye coordination for things like kicking a ball or tying shoelaces
- Dance in time with the music, perhaps even adding cool moves like spinning in place without moving from one spot
- Have improved handwriting that becomes neater and easier to read

## Cognitive Milestones

Your child's thinking skills in first grade allow him to start exploring the world to find answers to his own questions. During first grade, most children :

- Start developing the skills to reason and think logically; try to think about things before making decisions
- Use what they hear and read to start learning—not just what they see and do
- Find it hard to make choices because they want to do everything at once
- Can read a number of sight words (words they see frequently and can read without sounding out) and sound out and read other words

I

weeks, months and seasons

- Start to show specific learning strengths—the ways they learn best

## Language Milestones

By this age, your child may use language in long and complicated sentences to tell about past, present and future. He may start combining spoken language with reading and writing this year. First graders typically :

- Start sounding out words; understand the relationship between letters and sounds

- Know, use and understand thousands of words
- Stop reversing letters (by the end of first grade)

### Social and Emotional Milestones

First-grade social and emotional skills are an interesting mix of independence and an increased need for your attention and approval. By age 7, kids typically start to understand that friendships aren't something they can control by themselves. That may make them a little anxious. Many children also :

- Are more independent, but less secure; want a lot of attention and approval from adults
- Form and break friendships easily; can be critical of other kids
- Have feelings hurt more easily and start being very aware of other people's feelings
- Are eager to please and want to "be first" and win
- Understand right from wrong, but look for the loopholes in rules to get what they want
- Become more gracious losers and are able to reflect on their role in conflicts (by the end of the year)

There's a lot of variation in the pace at which kids develop skills throughout first grade. Your child may meet social and emotional milestones before physical milestones or vice versa.

However, if your child isn't able to do most of these things by the end of first grade, consider speaking with his teacher or talking to his doctor about the possibility of an evaluation. If your child needs support in some skill areas, now is a good time to start!

### Key Takeaways

- First graders typically begin using language for writing as well as speaking.
- Your first grader may seem more independent, but he still needs your emotional support and approval.
- If you have concerns about your child meeting his milestones, speak with his doctor or teacher.

### Parents Guide to Developmental Milestones

Every child is different, and so is every parent's experience; but experts have a clear idea about the range of normal development from birth to age 5—and signs that a child might have a developmental delay. Below you'll find milestones organized by period of development, and tips on when to contact a health professional about your concerns. Remember—there is no penalty for being cautious about your growing child, and if there is a problem acting early can make all the difference.

## ASSESSMENT SYSTEM

### CONTINUOUS COMPREHENSIVE AND DIAGNOSTIC EVALUATION

Continuous stands for assessment of a student throughout the year, not just at the end of a term. It may be done formally or in an informal way using different techniques of evaluation. Comprehensive takes care of assessment of all round development of a child's personality. A child will be assessed not only in terms of his knowledge about a subject but his participation in other activities also.

Broadly, we assess a child's growth in two areas–Scholastic and Co-scholastic.

The term Scholastic refers to those aspects, which are related to intellect or the brain. It is related to the assessment of learners in curricular subjects. It includes assignments, projects, practical etc.

Diagnostic assessment is a form of pre-assessment that allows a teacher to determine students' individual strengths, weaknesses, knowledge, and skills prior to instruction. It is primarily used to diagnose student difficulties and to guide lesson and curriculum planning.

A school session is divided into three terms :

FIRST TERM – JANUARY to APRIL

SECOND TERM – MAY to AUGUST

THIRD TERM – SEPTEMBER to DECEMBER

Each term has ONE Formative Assessment and one Summative Assessment. Each Formative Assessment includes 2 activities and Monday Test will be considered as one of the activity.

Syllabus covered in the 1<sup>st</sup> term will not be included in the 2<sup>nd</sup> and 3<sup>rd</sup> term

Syllabus covered in the 2<sup>nd</sup> term will not be included in the 3<sup>rd</sup> term.

### FORMATIVE ASSESSMENT

Formative Assessment includes all types, formal and informal Assessments can be done during the teaching process or after completing a unit. It includes :

I

- Home Assignment/Class Assignment (Note book submission)
- Oral Test
- Quiz
- Individual/Group Activity
- Recitation
- Math Lab Activity
- Project (Individual/Group)
- MCQ
- Monday Test
- Participation in Exhibition

### SUMMATIVE ASSESSMENT

This is the most traditional way of testing that is pen paper test based on the curriculum taught during the specified time period.

**GRADING SYSTEM**

The performance of a child in scholastic area will be assessed in term of marks.  
Marks will be known to the student but his report card will show grade only.  
Marks will be converted into grade as per following pattern

**GRADING SYSTEM for I to V**

**SCHOLASTIC**

| <u>MARKS RANGE</u> | <u>GRADE</u> | <u>REMARKS</u>        |
|--------------------|--------------|-----------------------|
| 90% –100%          | A*           | Outstanding           |
| 75% – 89%          | A            | Excellent             |
| 56% – 74%          | B            | Very Good             |
| 35% – 55%          | C            | Good                  |
| Below 35%          | D            | Scope for improvement |

**CO-SCHOLASTIC**

| <u>GRADE</u> | <u>GRADE POINT</u> |
|--------------|--------------------|
| A            | 4.1–5.0            |
| B            | 3.1–4.0            |
| C            | 2.1–3.0            |
| D            | 1.1–2.0            |
| E            | 0–1.0              |

**TERM–III**

**NEW EDUCATION POLICY –2020**

The announcement of National Education Policy 2020 on 31st July, 2020, by the Ministry of Education is a major breakthrough in the learning process of children in India. There are many pioneering changes that have been passed by the Cabinet on 29th July, 2020. After it was first drafted in 1986 and modified in the year 1992, the policy has not seen any significant changes. However, owing to the changing times and to make India self-sufficient, the new policy has been proposed. The policy aims to make future generation of India better skilled in fields of their choice by offering a universalized and holistic learning environment.

The goal of this new policy is to accomplish 100% Gross Enrolment Ratio (GER) in schools by 2030 under universal access to education. As opposed to the current curriculum structure, the suggested modifications are being brought about so as to enhance the earning capability of the average Indian by doing what they have interest in.

According to the NEP 2020, the following are some of the major changes that are being introduced :

1. The current 10+2 curriculum structure will be replaced with a 5+3+3+4 structure.
2. Students have to sit for exams only in Classes 3, 5 and 8, instead of the yearly examination module.
3. Mother tongue or local language is to be the medium of instruction for all schools up to Class 5, and is recommended till Class 8.
4. A holistic approach to teaching is being emphasised upon so that the prevalent rote learning can be made redundant.
5. Students will get more flexibility to pursue an education they are interested in instead of studying in a rigid curriculum.
6. The four year undergraduate programme will be brought to the forefront.
7. The MPhil programme will be removed.
8. No harel separation between Arts and Science, between curricular and extra curricular activities between vocational and academic streams, etc.

As opposed to the current curriculum structure, the NEP will enhance the earning capability of the average Indian by doing what they have interest in.

Based on the age of the children, there are four significant phases that have been categorized by the Education Regulatory Council. Let us now discuss the 5+3+3+4 curricular and pedagogical structure to understand how the new NEP 2020 impacts the learning process as a whole :

**Foundational Phase**

For children in the age group of 3 to 8 years, the first three years are to be spent in Anganwadis and the next two in pre-school education. This has been named the foundational phase.

The framework for this period is to be developed by the National Council of Educational Research and Training (NCERT), with importance to activity and discovery-based learning, languages, numbers, alphabets, logical thinking, etc. Student will be introduced to good behavior, hygiene, ethics and teamwork, to name a few. These will help them become better citizens. Instead of being restricted to classrooms, the learning process will expand to the outdoors, where children can observe and interact with Nature.

An important thing to remember is that this is the age when children remember the most as their cumulative brain development is at 80%. Therefore, new and interesting things have to be introduced to them at this stage.

### Preparatory Stage

Instead of rote learning, students in the Preparatory Stage will be encouraged to interact with teachers and ask them questions as much as possible.

The second period is for children between the ages of 8 and 11 years, and has been named the Preparatory stage. In this stage of Classes 3,4 and 5, introduction to textbooks, interactive learning and subjects that build their reading, writing, speaking, physical education, art, languages, science, and mathematics skills will be highlighted.

This is to inculcate a habit of reading and writing in children. Instead of rote learning, students in this stage will be encouraged to interact with teachers and ask them questions as much as possible.

### Middle Stage

In this third stage between ages 11 and 14, students will progress to Classes 6, 7 and 8. Here, students will be introduced to varied subjects such as sciences, mathematics, arts, social sciences, and humanities in Classes 3,4 and 5. The new National Education Policy embarks on a discussion-based learning process in this phase, just as the previous one. This middle stage is crucial so as to understand what children want from their education and which field they would like to excel in or make a career in.

### Secondary Stage

The fourth stage of NEP 2020 is the high school or secondary stage and is for children between the ages of 14 and 18. Students in Class 9 and 10 will fall in the first part, and those in Class 11 and 12 in the second category. There is an option for students to exit at Class 10 and re-enter the next phase based on their interest.

This final stage is an extension of the third one, with focus on critical thinking. With the right amount of counseling and holistic learning at this stage, students can have a fair idea of what their aspirations from career and life are.

National Education Policy 2020 is based on making education more accessible and the onus now lies on respective state school regulatory authorities to implement the policy effectively.

## Syllabus for Class–I, Subject–HINDI

Session : 2022-23

### TERM–I

| Month     | Chapter's Name                                                               | Art Intergration                    |
