## MISSION STATEMENT FOR

U.P. PUBLIC SCHOOL SURI, BIRBHUM, W.B.

1. Ta inspire academic, creative and flexible learning enviranment where children will recagnize and achieve their fullest patential, so that they can make their best cantribution to the saciety and they can think beyand parameter.
2. Taaim at praviding high quality educatian with madern infrastructural suppart in excellent learning enwiranment to pravide wide appartunities for pupils to nurture, stimulate and develap creative thoughts and to create an enviranment that fasters cansideration, empathy and cancernfar athers.
3. Ta give the values of the partnership which exists between schoal, parents and cammunity. Within the partnership, we pravide each student with the knawledge skills, and attitude to become a productive citizen in a challenging, technalagical and diverse warld.
4. Tapravide suppart and training to all faculty and staff so that they are equipped with adequate preparation and suppart to perfarm the respansibility far develaping a student for their educational, ematianal and sacial grawth.

## OLYMPIAD AND TALENT SEARCH EXAM FORM 2022-23

EMAIL ID : upps.talentexam@gmail.com
Dear Parents,
Like previous years, this year, too, (2022-23) we are going to organize G.K., Cyber, Science athematics, English Olympiad \& National Science Talent search examinations in our school. So you are requested to get your ward(s) enrolled for the examinations. The last date to fill up the form on or before 14th July $2022 \boldsymbol{\&}$ should be submitted to the concerned clas eacher or in the cash counter.
OLYMPIAD \& TALENT SEARCH EXAMINATIONS are a diagnostic test which actually helps students to improve.
Unlike regular tests which try only to find out how much a child knows (or has memorized), OLYMPIAD \& TALENT SEARCH EXAMINATIONS measures how well a student has understood concepts and gives detailed feedback on the same, to help them improve. Thus OLYMPIAD \& TALENT SEARCH EXAMINATIONS helps each student know whether he/she has actually understood a concept early on so that immediate action can be taken. Often students have conceptual gaps which increase as they progress and when they reach the higher classes, they develop a "phobia" for the subject.
chool tests-including board exams-tend to be superficial, testing what children have memorised. But the important skills like the ability to think independently and reason ogically-critical in today's world-are often not emphasised in school tests.
The focus on fundamentals is so important that when the child finishes studies he/she will have to face the competitive world armed with these fundamentals. Even while opting for higher studies, the student has to go through a complete scan of what he/she nows and how much Exams like IIT-JEE AIEEE AFMC, AIIMS, GRE, GMAT, CAT tc., are so designed to test the fundamental strength of student. Hence the need of the hour is building the fundamentals base as strong as possible
This exactly is the philosophy of U. P. Public School behind the conducting OLYMPIAD \& TALENT SEARCH EXAMINATIONS
Syllabus (all exams are based on CBSE Syllabus)
Examination Date and Fees

| Exams | Date of Exam |  | Classes | Fees |
| :--- | :--- | :--- | :--- | :--- |
| International General Knowledge Olympiad |  |  | I to X | ₹ 150 |
| International English Olympiad |  |  | I to XII | ₹ 150 |
| National Science Olympiad |  |  | I to XII | ₹ 150 |
| International Mathematics Olympiad |  |  | I to XII | ₹ 150 |
| National Cyber Olympiad |  |  | II to X | ₹ 150 |
| International Company Secreatory Olympiad |  |  | XI to XII | ₹ 150 |
| National Level Science Talent Search Exam. |  |  | I to XII | ₹ 150 |
| International Social Science Olympiad |  |  | III to X | ₹ 150 |
| Akhil Bharati Hindi Olympiad |  |  | III to X | ₹ 150 |
| International Reasoning and Mental Ability Olympiad |  |  |  | ₹ 150 |
| Vidyarthi Vigyan Manthan |  |  | VI to XI | ₹ 100 |
| Green Olympiad |  |  | IV to X | ₹ 75 |

## At a Glance

- In second and third grade, kids start understanding more complicated ideas, such as cause and effect.
- Second and third graders become better at writing complete sentences and using basic punctuation.
- Peer influence plays a big role in relationships for kids at this age.

Are you wondering about typical second and third grade development? At this age, kids make big leaps in language and cognition, as well as in how they feel and get along with others. Here's more information about typical skill for 7 -year-olds and 8-year-olds.

## Physical Milestones

At ages 7 and 8 , your child may be working on refining her physical skills. Her fine motor control and stamina may improve. Most second and third graders:

- Gain strength in both big and small muscles ; can play and be active for longer periods without getting tired
- Use the small muscles in hands better ; do much better with handwriting, scissor skills and manipulating things like buttons, zippers and shoelaces
- Start being able to run farther and for longer

## Cognitive Milestones

At this age, thinking and problem-solving skills are taking off. Children tend to talk at a more adult level and start to show an interest in specific activities that interest them. Cognitively, most children at this age :

- Look for the reasons behind things; ask questions for more information
- Understand cause and effect and make more in-depth connections (for example, know things like if $6+2=; 8$, then $8 \quad 6=2$ )
- Start planning ahead ; may create a drawing of something to build or a plan for an experiment
- Have a longer attention span; can sit and pay attention to something that interests them for at least 30-45 minutes
- Collect things

## Language Milestones

Language development typically continues at a steady pace these two years. Vocabulary grows and kids start trying out words they have read but not heard. By the end of third grade, most children can do these things :

- Comprehend what they're reading and begin to move from "learning to read" to "reading to learn"
- Learn vocabulary through reading
- Use words to talk through problems, both socially and academically
- Start playing with words to make puns; understand jokes and riddles
- Test out "bad" words for shock value
- Use all letter sounds correctly; don't substitute $w$ for $r$ anymore when speaking
- Use writing as a way to express feelings, tell stories and summarize information

## Social and Emotional Milestones

Second and third grade can be a little rough socially and emotionally. Kids start narrowing down to a few good friends, but those friendships can change quickly. Most kids are eager to fit in and try out new personalities to see where they fit. By the end of third grade, most children will :

- Have moments of extreme insecurity and need a lot of encouragement from parents
- Change often between being helpful and upbeat to being rude and selfish
- Enjoy being part of a team, group or club
- Spend more time with and be easily influenced by peers
- Experience periods of dramatic emotion and impatience and the feeling that everyone is against them and then bounce right back to everything being just fine
- Start seeing things from other points of view and incorporate that into everyday life

These milestones are typical, but kids develop at their own pace. If you're concerned that your child hasn't met a number of these milestones, it's a good idea to speak with her doctor or talk to the teacher to see if it's causing issues in the classroom. Both the school and the doctor can help you come up with a plan for where to go next. Check out our community and find other parents with similar experiences.

## Key Takeaways

- By the end of third grade, your child may be able to pay attention to something of interest for nearly an hour.
- Don't be surprised if your child is moody one minute and OK the nextthis is pretty typical for second and third graders.
- If you have concerns about your child meeting her milestones, speak with her doctor or teacher.

Syllabus for Class-II, Subject-E.V.S
Session : 2022-23
TERM-I

| Month | Chapter's Name | Art Integration |
| :---: | :---: | :---: |
| JANUARY | About myself My family and I | Introduction Photography / Art Rhymes |

| MARCH | More about Animals Season and Weather | Role Play / Audio Visual Song \& Dance |
| APRIL | REVISION <br> T-I Examination |  |
|  | TERM-II |  |
| MAY | Our Body <br> More about plants | Song \& Dance Live Examples \& Elocution |
| JUNE | Our University <br> Direction and time | Show there Model and Role Play Show them Campas, Chart, Live Example |
| JULY | Eating Food Clothes We Wear | Live Examples, Art \& Craft <br> Examples with Song and Dance |
| AUGUST | Our surroundings <br> REVISION \& EXAMINATION |  |
|  | TERM-III |  |
| SEPTEMBER | People at work <br> Our Earth | Role Play \& Song Role Play, Model, Rhymes |
| OCTOBER | Air Around us | Model Disussion, Rhymes |
| NOVEMBER | School is fun <br> House People Live in | Role Play \& School Visit Song \& Dance |
| DECEMBER | Travel and Communicate Time to Celebration | Rhymes Song (A \& V) Story Telling (Religious as well as National) |
| JANUARY | REVISION \& TERM-III |  |

## ASSESSMENT SYSTEM

CONTINUOUS COMPREHENSIVE AND DIAGONASTIC EVALUATION Continuous stands for assessment of a student throughout the year, not just at the end of a term. It may be done formally or in an informal way using different techniques of evaluation. Comprehensive takes care of assessment of all round development of a child's personality. A child will be assessed not only in terms of his knowledge about a subject but his participation in other activities also
Broadly, we assess achild's growth in two areas-Scholastic and Co-scholastic. The term Scholastic refers to those aspects, which are related to intellect or the brain. It is related to the assessment of learners in curricular subjects. It includes assignments, projects, practical etc
Diagnostic assessment is a form of pre-assessment that allows a teacher to determine students' individual strengths, weaknesses, knowledge, and skills prior to instruction. It is primarily used to diagnose student difficulties and to guide lesson and curriculum planning.
A school session is divided into three terms :

$$
\begin{array}{ll}
\text { FIRST TERM } & - \text { APRIL to JULY } \\
\text { SECOND TERM } & - \text { AUGUST to NOVEMBER } \\
\text { THIRD TERM } & - \text { DECEMBER to MARCH }
\end{array}
$$

Each term has ONE Formative Assessment and one Summative Assessment. Each Formative Assessment includes 2 activates and Monday Test will be considered as the one of the activity.
Syllabus covered in the $1^{\text {st }}$ term will not be included in the $2^{\text {nd }}$ and $3^{\text {rd }}$ term
Syllabus covered in the $2^{\text {nd }}$ term will not be included in the $3^{\text {rd }}$ term.

## FORMATIVE ASSESSMENT

Formative Assessment includes all types, formal and informal Assessment can be done during the teaching process or after completing a unit. It includes :

- Home Assignment/Class Assignment (Note book submission)
- Oral Test
- Quiz
- Individual/Group Activity
- Recitation
- Math Lab Activity
- Project (Individual/Group)
- MCQ
- Monday Test
- Participation in Exhibition

## SUMMATIVE ASSESSMENT

This is the most traditional way of testing that is pen paper test best on the curriculum taught during the specified time period.

## GRADING SYSTEM

The performance of achild in scholastic area will be assessed in term of marks. Marks will be known to the student but his report card will show grade only.
Marks will be converted into grade as per following pattern

GRADING SYSTEM for I to V

| SCHOLASTIC <br> MARKS RANGE |  |  |  |
| :--- | :---: | :--- | :--- |
| $90 \%-100 \%$ | GRADE |  | REMARKS |
| $75 \%-89 \%$ | A $^{*}$ |  | Outstanding |
| $56 \%-74 \%$ | A |  | Excellent |
| $35 \%-55 \%$ | B |  | Very Good |
| Below $35 \%$ | C |  | Good |
|  | D |  | Scope for improvement |

The announcement of National Education Policy 2020 on 31st July, 2020, by the Ministry of Education is a major breakthrough in the learning process of children in India. There are many pioneering changes that have been passed by the Cabinet on 29th July, 2020. After it was first drafted in 1986 and modified in the year 1992, the policy has not seen any significant changes. However, owing tothe changing times and to make India self-sufficient, the new policy has been proposed. The policy aims to make future generation of India better skilled in fields of their choice by offering a universalized and holistic learning environment.
The goal of this new policy is to accomplish 100\% Gross Enrolment Ratio (GER) in schools by 2030 under universal access to education. As opposed to the current curriculum structure, the suggested modifications are being brought about so as to enhance the earning capability of the average Indian by doing what they have interest in.
According to the NEP 2020, the following are some of the major changes that are being introduced:

1. The current $10+2$ curriculum structure will be replaced with a $5+3+3+4$ structure.
2. Students have to sit for exams only in Classes 3,5 and 8 , instead of the yearly examination module.
3. Mother tongue or local language is to be the medium of instruction for all schools up to Class 5, and is recommended till Class 8
4. A holistic approach to teaching is being emphasised upon so that the prevalent rote learning can be made redundant.
5. Students will get more flexibility to pursue an education they are interested in instead of studying in a rigid curriculum.
6. The four year undergraduate programme will be brought to the forefront.
7. The MPhil programme will be removed.
8. No harel separation between Arts and Science, betueen curricular and extra curriculam activities betueen vocational and academic streams, etc.
As opposed to the current curriculum structure, the NEP will enhance the earning capability of the average Indian by doing what they have interest in.
Based on the age of the children, there are four significant phases that have been categorized by the Education Regulatory Council. Let us now discuss the $5+3+3+4$ curricular and pedagogical structure to understand how the new NEP 2020 impacts the learning process as a whole:

## Foundational Phase

For children in the age group of 3 to 8 years, the first three years are to be II spent in Anganwadis and the next two in pre-school education. This has been named the foundational phase.

The framework for this period is to be developed by the National Council of Educational Research and Training (NCERT), with importance to activity and discovery-based learning, languages, numbers, alphabets, logical thinking, etc. Student will be introduced to good behavior, hygiene, ethics and teamwork, to name a few. These will help them become better citizens. Instead of being restricted to classrooms, the learning process will expand to the outdoors, where children can observe and interact with Nature.

An important thing to remember is that this is the age when children remember the most as their cumulative brain development is at $80 \%$. Therefore, new and interesting things have to be introduced to them at this stage.

## Preparatory Stage

Instead of rote learning, students in the Preparatory Stage will be encouraged to interact with teachers and ask them questions as much as possible.
The second period is for children between the ages of 8 and 11 years, and has been named the Preparatory stage. In this stage of Classes 3,4 and 5 , introduction to textbooks, interactive learning and subjects that build their reading, writing, speaking, physical education, art, languages, science, and mathematics skills will be highlighted.
This is to inculcate a habit of reading and writing in children. Instead of rote learning, students in this stage will be encouraged to interact with teachers and ask them questions as much as possible.

## Middle Stage

In this third stage between ages 11 and 14, students will progress to Classes 6,7 and 8 . Here, students will be introduced to varied subjects such as sciences, mathematics, arts, social sciences, and humanities in Classes 3,4 and 5. The new National Education Policy embarks on a discussion-based learning process in this phase, just as the previous one. This middle stage is crucial so as to understand what children want from their education and which field they would like to excel in or make a career in.

## Secondary Stage

The fourth stage of NEP 2020 is the high school or secondary stage and is for children between the ages of 14 and 18. Students in Class 9 and 10 will fall in the first part, andthose in Class 11 and 12 in the second category. There is an option for students to exit at Class 10 and re-enter the next phase based on their interest.
This final stage is an extension of the third one, with focus on critical thinking. With the right amount of counseling and holistic learning at this stage, students can have a fair idea of what their aspirations from career and life are.
National Education Policy 2020 is based on making education more accessible and the onus now lies on respective state school regulatory authorities to implement the policy effectively.

TERM-III

| Month | Chapter's Name | Activities |
| :---: | :--- | :---: |
| SEPTEMBER | Ch 11, 12. मुझे पौर चाहिए, प्रतियोमिता <br> चित्र वर्णन <br> Gr-पर्यायवाची | VISUAL <br> EFFECT |
